What is Paraguay's new energy policy?

The New Energy Policy aims to consolidate Paraguay's position as a key player in regional energy integration, through overarching goals to strengthen the national electricity sector and key subsectors such as: electricity, binational hydroelectric entities, bioenergy, renewable alternative sources, and hydrocarbons.

Should Paraguay rely on natural gas?

By relying on natural gas in the short term, Paraguay can reduce its dependence on coal and oil while ramping up its investments in solar, hydrogen, and bioenergy. Paraguay's ambitious energy policy is a bold step toward a more sustainable future, but it also comes with challenges.

How to strengthen the energy sector in Paraguay?

1. General energy sector Institutional strengthening: creation of the Ministry of Energy, Hydrocarbons, and Mining (MEHM) by 2024, followed by a plan to strengthen it and the public companies in the sector by 2025. Energy efficiency: creation of the Paraguayan Energy Efficiency Agency (public-private partnership) by 2030.

Will Paraguay reshape its energy landscape by 2050?

The Paraguayan government unveiled a transformative energy policy to reshape the country's energy landscape by 2050. Signed into action by President Santiago Peña, this initiative sets the stage for Paraguay to diversify its energy generation and embrace sustainable alternatives such as solar energy, hydrogen fuel, and biofuels.

Paraguay's new energy storage policy Paraguay has launched an ambitious energy policy, targeting a diverse, sustainable energy mix by 2050. Focusing on solar, hydrogen fuel, and ...

Paraguay is stepping up its renewable energy game with updated energy storage configuration standards. This article breaks down the technical specifications, industry impacts, and ...

Paraguay's energy ministry didn't just pull this idea from thin air. Three compelling factors drove their decision: Think of it as a vertical energy seesaw. During off-peak hours, excess solar and ...

Paraguay has launched an ambitious energy policy, targeting a diverse, sustainable energy mix by 2050. Focusing on solar, hydrogen ...

The Decree sets out an energy policy plan for Paraguay with a long-term outlook until the year 2050,

addressing the need for innovation considering current challenges in the energy sector ...

Signed into action by President Santiago Peña, this initiative sets the stage for Paraguay to diversify its energy generation and embrace sustainable alternatives such as solar energy, ...

This paper analyzes technically and economically an autonomous sodium hypochlorite plant using a renewable energy source and a hydrogen storage system in the Western Region of Paragua...

Paraguay has launched an ambitious energy policy, targeting a diverse, sustainable energy mix by 2050. Focusing on solar, hydrogen fuel, and biofuels, the country ...

As we approach Q4 2024, Paraguay's energy ministry is drafting new storage incentives. Industry insiders suggest feed-in tariffs for grid-scale batteries and tax breaks for residential systems.

Increase Paraguay's energy crop yields, diversify its energy crops, consistently enforce reforestation policy and the critical biomass certification program in the implementation phase ...
