What are plastic foldable large containers (FLCS)?

Plastic foldable large containers (FLCs) ORBIS plastic FLCs are an efficient and sustainable alternative to steel,cardboard or wooden packaging. The foldable industrial bins with Standard footprints are easy to implement along different points of the supply chain and can be adapted to customer preferences.

What is a foldable large container?

Foldable large containers (also called: pallet boxes) are large collapsible containers adapted to Standard pallet footprints. They can be manufactured from wood or plastic. As a combination of container and pallet,pallet boxes often have runners. Due to the runners,operators can easily handle the large containers with fork lifts and lift trucks.

Why do companies need plastic transport packaging solutions?

Today,more and more companies are implementing plastic transport packaging solutions in order to optimize sustainability and efficiency in their processes. ORBIS Europe plastic containers,pallets and bulk systems improve the flow of product for reduced costs,enhanced profitability and added sustainability.

What are the different types of FLC containers?

Our range of FLC containers includes: European footprint 1200 x 800 mm, ISO-footprint 1200 x 1000 mm, XXL boxes with extended length, optimised for 40' overseas containers 1190 x 1135 mm. Foldable large containers are robust, durable, collapsible and stackable. What is the BulkPak® Family?
