Who is involved in establishing efficient cross-border electricity trading in Tajikistan?

In Tajikistan's neighbouring countries, the various national ministries for energy, economy and trade as well as the entities involved with generation, transmission and distribution of electricity as trading partners are relevant stakeholders in establishing efficient cross-border electricity trading.

Is Tajikistan ready for increased electricity trading?

To strengthen its readiness for increased electricity trading, Tajikistan should embrace these principles: Financial viability of utilities signals their operational sustainability as market entities - a critical characteristic to ensure confidence with trading partners that rely on electricity supply.

Why does Tajikistan need interconnecting power systems?

In the case of Tajikistan, it provides a bigger market to which it can sell its hydropower surpluses. In energy security terms, interconnecting power systems offers a more diverse energy supply and reduces the impact of disruptions.

Should Tajikistan import electricity if there is a power shortage?

Power Sector Development Master Plan Vol 1. While exports are the prime motivation of Tajikistan to pursue cross-border electricity trade in order to gain revenue, the option to import electricity in times of shortage should be open. Imports could also delay or avoid the need to build new thermal generation capacity.

Nov 30, 2025 scottjo2152 F Mini 3 Pro - Replacing rear motor without opening a drone factislite Mar 7, 2024
