The project provides for the installation of solar panels, renewable solar electricity production and storage, as well as hydrogen and alternative fuel production.

Over 5,000 households now participate in Riga's virtual power plant program. Their aggregated 38MWh capacity provides crucial grid services during emergencies while earning participants ...

Let's face it - the sun doesn't always shine when we need electricity. That's where Riga Dingfu photovoltaic energy storage systems come in, acting like a solar-powered piggy ...

SUNOTEC builds massive solar and battery storage project in Latvia, boosting renewable energy, energy independence, and economic growth. A game-changer for Latvia's energy future.

With a construction timeline set for five years, this ambitious plant will incorporate an extensive array of solar panels linked directly to a 110 kV power line. This infrastructure is ...

The platform was initiated in June 2024 through a joint venture between Niam and Evecon, targeting up to 110 MW of installed capacity in solar PV and battery energy storage.

SUNOTEC acquires 400 MWp solar-plus-600 MWh storage project in Latvia, targeting grid connection by 2027 and bolstering the country's expanding clean-energy ambitions.

Backed by BlackRock's Diversified Infrastructure business, Jupiter Power has a strategic and established portfolio of utility-scale energy storage projects operating or in construction in the ...

This deal marks the beginning of a major solar energy project at the port of Riga, which will include the installation of solar panels, the production and storage of renewable ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being ...
