-----

Why is battery storage important in Romania?

This policy shift aligns Romania more closely with EU energy goals, where battery storage is increasingly recognized as an enabler of grid flexibility, renewable integration, and energy security.

Why is Romania removing double taxation on energy storage?

Romania's elimination of double taxation on energy storage is more than a technical adjustment--it's a strategic inflection point. By aligning its regulatory framework with market realities, the country is removing one of the last structural barriers to widespread BESS adoption.

How important is Romania's move to European energy storage?

For the European energy storage ecosystem, Romania's move is strategically significant. It sets a precedent for neighboring countries where outdated tariff structures still hinder the rollout of commercial and industrial ESS solutions.

Why has Romania overhauled a key regulatory barrier preventing energy storage?

In a decisive move to support its clean energy transition, Romania has overhauled a key regulatory barrier holding back investment in energy storage.

Romania's National Energy Regulatory Authority (ANRE) has taken aim at accelerating energy storage solution deployment by eliminating the double taxation on stored ...

Key goals include completing new power plants, achieving significant renewable capacity through private projects, and doubling ...

The Romanian Energy Regulatory Authority (ANRE) has officially approved a framework that removes duplicate charges for stored and reinjected electricity, aligning the ...

Romania's National Energy Regulatory Authority (ANRE) has taken aim at accelerating energy storage solution deployment by ...

The present report analyses the status, challenges, and opportunities for energy storage in Romania, focusing on technological, regulatory, financial, and business aspects.

The National Energy Regulatory Authority of Romania has approved a regulation eliminating double taxation of energy storage, to allow for faster deployment of solutions for ...

The National Energy Regulatory Authority of Romania has approved a regulation eliminating double taxation of energy storage, to ...

Romania is accelerating to become a key hub in Europe's new energy map, and its government is promoting the development of the energy storage market through policy ...

On July 8th, Romania's Energy Regulatory Authority (ANRE) officially approved new regulations abolishing double taxation on battery energy storage systems (BESS). The ...

The National Energy Regulatory Authority (ANRE) announced on July 8 a new framework that eliminates the double taxation of ...
