Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high-performance 500kW Hybrid Inverter. Featuring a modular and ...

Single-cell and multi-cell battery packs offer flexible, modular solutions for transporting smaller batteries. These packs are designed to securely hold one or multiple ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...

It offers high energy density, long service life, and efficient energy release for over 2 hours. Individual pricing for large scale projects and wholesale demands is available.

LZY-MSC1 Sliding Mobile Solar Container is a portable containerized solar power generation system, including highly efficient folding solar modules, advanced lithium battery storage and ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the ...

Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including ...

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.
