What types of solar combiner boxes are available?

We offer a variety of solar combiner boxes, including DC and AC. DC combiner boxes cover 1-24 input channels, support 600V/1000V/1500V system voltage, and current range 10A-400A. AC combiner boxes support low-voltage and medium-voltage applications.

Who is letop solar combiner box manufacturer?

We are LETOP, a professional Solar Combiner Box manufacturer. We have been deeply involved in the industry for 15+ years. With excellent R&D strength and advanced production technology, we provide high-quality and high-performance photovoltaic combiner box & related components to global customers.

How many string configurations can a combiner box support?

The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages. It features industrial-level protection design, including string monitoring, RS485 bus/standard MODBUS-RTU protocol, arc fault detection, and fast shutdown/fireman switch functions.

Aside from the solar panels, solar companies have many other manufactured products that are required to make solar energy systems work smoothly, like solar inverters, batteries, combiner ...
