The Dominican Republic's national energy commission CNE has granted a definitive concession for the construction and operation of a 49.98-MW/60.04-MWp solar farm equipped with a ...

This system utilizes a powerful 120KWH POWERWALL lithium battery to store solar energy generated from a GSL PV solar panel system. The purpose of this innovative ...

New materials developed here are solving the region's biggest energy puzzle: how to store solar and wind power effectively when the sun isn't shining and the wind isn't blowing.

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

The four-hour BESS will feature 36 containers, each containing 250 lithium batteries, for a total of 9,000 units. The project, which will be deployed across 70 hectares, will ...

EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and experience to get your next project designed and delivered.

The four-hour BESS will feature 36 containers, each containing 250 lithium batteries, for a total of 9,000 units. The project, ...

The Dominican Republic's 300MW project demonstrates how energy storage can transform island economies - reducing fuel dependence while enabling renewable growth.

Imagine trying to catch rainwater during a tropical storm - that's essentially what this project does with solar and wind energy. As the country targets 25% renewable energy by 2025, this ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh ...
