How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Which solar panels do you use?

We use the highest quality solar panels, including LG, Peimar, and Canadian Solar; these solar panels harvest the sun's power and store the energy in high-quality lithium batteries, controlled with an external BMS. Then the power is distributed using Victron Multiplus units, so this inverter/charger can transfer the power.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Get detailed specs and pricing for Sunmaygo's solar containers. Compare models, battery options, and calculate ROI. Find the best mobile solar power system for your needs.

Designed for multiple applications such as construction sites, home power backup, offices, roadside assistance, and service on wheels (SOWs), this ...

The Fortress Power Envy 10 is an easy to install and all-in-one 10,000 watt (10kW), 120V - 240Vac and 97.5% efficiency, inverter solution for grid-tied or stand-alone solar power ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for
