Does Somaliland need a reliable energy supply?

Somaliland's government acknowledges the lack of reliable energy provision as a major constraint to development. The government plans to ensure that all citizens have access to affordable energy from local and renewable sources by 2030.

Where can I find information about shipping to and from Somalia?

Your complete guide to shipping to and from Somalia. Find the right route, get Maersk office locations, discover local solutions, payment options and more. OGF Building, Berbera Street No.1, Nr. Berbera port, Somaliland Get up-to-data local information about holiday periods, charges, payment services, procedures and restrictions, and more.

How is cargo transported in Somalia?

Inland haulage in Somali is performed on merchant basis only - Maersk is not involved in this activity. All import containers are stripped in the terminal, and export containers are stuffed in the terminal. The majority of cargo moves to and from the port on local flat bed trucks arranged by the party to the shipment in Somalia.

Why is electricity so expensive in Somaliland?

Electricity across Somaliland is privatised and relies on fossil fuel, mainly diesel, which is imported from the Arabian peninsula. Energy is, therefore, costly and unsustainable. Somaliland has one of the world's highest energy prices punctuated with frequent and often long-lasting power cuts.
