As experts in steel buildings, we've got you covered. Our modular solar mounting systems are built to work perfectly with your steel roof, so you can easily switch to solar without any hassle.

Large-scale, grid-connected or standalone systems for high-demand applications. Ideal for utility-grade resilience hubs and remote ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system includes solar panels, a lithium iron phosphate ...

A shipping container solar system is a modular, portable power station built inside a standard steel container. A Higher Wire system ...

The system provides a discharge capacity of up to 80 kW and supplies connected consumers even when there is no sunshine. If you need more ...

The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...

We design and supply solar trackers and fixed structures for the solar photovoltaic sector with global design, manufacturing and supply capabilities. Product design is based on industry best ...

Grid Structures is dedicated to ensuring a sustainable future by producing custom-designed, cost-effective solar structures to meet tomorrow's energy needs today.

Large-scale, grid-connected or standalone systems for high-demand applications. Ideal for utility-grade resilience hubs and remote communities. Supports microgrid portfolios with multiple ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The ...
