What is New York's first bulk energy storage request for proposals?

New York Gov. Kathy Hochul on July 28 announced the launch of New York's first Bulk Energy Storage Request for Proposals, which is intended to procure one gigawatt of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap.

Why is energy storage important in New York?

New York State Department of Environmental Conservation Commissioner Amanda Lefton said, "Energy storage is fundamental to help ensure reliability while New York continues to invest in renewables and reduce greenhouse gas emissions that are polluting our air and negatively impacting quality of life for New Yorkers.

What is New York's 6 GW energy storage roadmap?

New York's 6 GW Energy Storage Roadmap, which recommends the deployment of six GW of energy storage, also authorizes funds for NYSERDA to support 200 megawatts (MW) of new residential-scale energy storage and 1,500 MW of new commercial and community-scale energy.

What is bulk energy storage & how can it help New York?

New York Secretary of State Walter Mosley said, "In looking ahead for the state's future, bulk energy storage can provide the ability to store excess electricity during times of lower usage or high renewable production and return that electricity to the grid during peak times when it's needed most.
