COSCO Shipping has launched the "YUAN HAI KOU," an innovative car carrier combining solar energy and liquefied natural gas (LNG). This vessel, the largest of ...

In a world increasingly concerned with environmental sustainability, the launch of the Yuanhai Kou stands as a beacon of ...

In a world increasingly concerned with environmental sustainability, the launch of the Yuanhai Kou stands as a beacon of innovation. This vessel, heralded as the world's largest ...

On May 15, 2025, the Yuanhai Kou, recognized as China's largest ocean-going cargo ship powered by both photovoltaic (PV) and liquefied natural gas (LNG), set sail from Nansha in ...

In addition to LNG, the vessel is equipped with photovoltaic (PV) systems from Chinese manufacturer LONGi. Over 500 PV panels ...

Solar modules of LONGi have been installed on the Yuanhai Kou, China's largest dual-fuel car carrier powered by photovoltaic (PV) and LNG technologies. Equipped with over ...

As disclosed, the 7,000 CEU PV + LNG dual-fuel car carrier was fully loaded with Chinese-made electric vehicles (EVs), after which the vessel embarked on a journey to ...

In addition to adopting an advanced LNG (liquefied natural gas) dual-fuel main engine, it is equipped with a distributed PV system ...

Designed as China's largest photovoltaic (PV) + LNG energy car carrier, the Yuanhai Kou features a dual-fuel engine using liquefied natural gas (LNG) and fuel oil, and smart ...
