KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

Discover the top solar projects revolutionizing East Africa, from Kenya's 40MW Isinya and Makueni farms to Uganda's 100MW battery storage plant.

"By efficiently storing surplus energy and enhancing electricity stability and reliability, the BESS project will not only alleviate energy curtailment but also usher in a new ...

According to a report by ESI Africa, KenGen is considering a pilot installation of BESS capacity across several key regions, including the Central Rift, Coastal Region, Mount ...

Discover the top solar projects revolutionizing East Africa, from Kenya's 40MW Isinya and Makueni farms to Uganda's 100MW ...

Kenya has issued a new tender for a solar-plus-storage project at Seven Forks, combining 42.5 MW of solar power with a 3 MW/4.5 MWh battery system. Discover how this ...

The BESS will be utilized in the storage of excess energy generated by geothermal plants and help address grid instability arising from high levels of intermittent ...

As Kenya continues to position itself as a hub for renewable energy innovation, the installation of large-scale Battery Energy Storage Systems, the growth of electric mobility, and ...

Kenya has issued a new tender for a solar-plus-storage project at Seven Forks, combining 42.5 MW of solar ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring ...
