Average global horizontal irradiation is between 4.2 kWh per m²; per day in the north-west of Tunisia and 5.8 kWh per m²; pd in the extreme south. ...

Tunisia's Ministry of Industry, Mines, and Energy has awarded contracts for over 500MW of solar capacity, part of a broader 1.7GW ...

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, ...

In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's ...

Tunisia has set a target to generate 30-35% of its electricity from renewable sources by 2030, with large-scale solar PV forming the backbone of its strategy.

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a ...

Average global horizontal irradiation is between 4.2 kWh per m²; per day in the north-west of Tunisia and 5.8 kWh per m²; pd in the extreme south. Given these favourable conditions, the ...

After four years of delays, 500MW of Tunisian solar capacity awarded in late 2019 is finally moving forward. But a "35% by 2030" renewables target is well beyond reach.

Tunisia's Ministry of Industry, Mines, and Energy has awarded contracts for over 500MW of solar capacity, part of a broader 1.7GW renewable energy initiative. The tenders, ...

Tunisia has announced the winners of tenders for over 500MW of solar capacity, part of a series of tenders to install 1.7GW of new renewable power capacity. The contracts ...
