Who will supply generators to Ukraine?

The generators will be provided by UK commercial suppliers, who will provide their available stocks of generators to the effort. It is expected that suppliers will be able to deliver a large proportion of these generators to Ukraine via neighbouring countries.

How many generators are there in Ukraine?

This follows an initial 569 generators from 5 UK companies who have all supplied mobile units to help Ukraine. The new generators - enough to power the equivalent of around 8,000 additional homes - will be used for larger buildings such as hospitals and shelters following the brutal onslaught in Eastern Ukraine.

Does Ukrservice import generators?

Trading house Ukrservice has exclusive rights to import generators of well-known brands, which are certified in accordance with Ukrainian and European standards.

What is the capacity of a container power generator?

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'.
