The Vatican and the Italian government sign an agreement to build an agrovoltaic plant in Santa Maria di Galeria and move towards net zero.

The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

In a significant move merging faith with climate action, Italy and the Vatican have agreed to turn a 430-hectare (1,000-acre) site at Santa Maria Galeria, just north of Rome, into ...
