Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on ...

Alongside Mongolia and Cambodia, Vietnam will receive technical and financial support to promote energy storage solutions - a ...

Solar & Storage Live Vietnam 2025 stands as a powerful testament to the nation's commitment to clean energy innovation.

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing ...

"Today's workshop has demonstrated the tremendous potential of energy storage systems in supporting a just energy transition, while also outlining concrete steps to turn ...

Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for ...

With global costs for solar, wind, and battery storage systems continuing to fall, Vietnam could replace fixed FiTs with transparent ...

Vietnam is seeking greater energy efficiency, improved transmission, and alternative fuels for its energy storage sector.

From FiT-driven growth today to a storage-led revolution tomorrow, the potential is immense--but success hinges on resolving policy hurdles and boosting infrastructure.
