Who makes LV switchgears?

Binghalib Engineering is leading manufacturer of LV Switchgears in the region from DBs to the most complex intelligent MCCs. With infrastructure aging, switchgears may become inefficient and compatibility issues arise with modern equipment's. Replacement of full switchgears may turn expensive and, in such cases, we offer Retrofit services.

What are switchgear panels?

Switchgear panels are used to house and control switchgear equipment. Our manufacturing unit offers a wide range of switchgear panels designed to meet the needs of various industries. Our switchgear panels are custom-designed to meet the specific requirements of our clients, and we can manufacture them in various sizes, ratings and configurations.

Does m/s binghalib engineering supply LV switchgears?

"This is to certify that M/S Binghalib Engineering has successfully delivered LV Switchgears (MDB, MCC, UPS Panels, Annunciator Panels and SMDBs) for UZ750 UPPER ZAKUM PROJECT NORTH ICELAND - ZADCO. We would like to thank you for your coordination and cooperation for the supply of LV switchgears for above project."

How many volts can a switchgear panel handle?

Our switchgear panels are custom-designed to meet the specific requirements of our clients, and we can manufacture them in various sizes, ratings and configurations. Medium-voltage switchgear is designed to handle voltage levels from 1,000 Volts up to 35,000 Volts.
