Which countries dominate solar module manufacturing?

According to Wood Mackenzie's report, China continues to dominate the solar module manufacturing landscape in terms of scale, but emerging challengers from India, South Korea, and Vietnam are rapidly closing the gap as global production becomes more geographically diverse.

How many solar modules are there in 2024?

Domestic solar module capacity rose 190 percent in 2024 to more than 51 GW and created over 33,000 jobs. Industry data show that 8.6 GW of new module capacity was added in Q1 2025. Despite this progress, the domestic supply chain remains incomplete.

What incentives are available for solar modules?

Incentives such as the Inflation Reduction Act provide credits for module assembly, cell production and polysilicon manufacturing. Domestic solar module capacity rose 190 percent in 2024 to more than 51 GW and created over 33,000 jobs. Industry data show that 8.6 GW of new module capacity was added in Q1 2025.

When Tongwei and Astronergy are included, the top six companies account for over 60% of the market share, with production ...

Explore the top 10 global PV module suppliers of 2024. JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina ...

In 2024, the global solar module market continued to see the strongest players thrive, with the top four enterprises -- JinkoSolar, ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies ...

When Tongwei and Astronergy are included, the top six companies account for over 60% of the market share, with production capacity sufficient to meet global demand. In ...

The leading companies in solar panel exports include well-known giants such as JinkoSolar, Trina Solar, and Canadian Solar, all of which dominate not only in production but ...

This guide compares leading solar panel manufacturers worldwide, examines the resurgence of US manufacturing, and shows how businesses can source panels wholesale.

In the dynamic world of solar energy, 2023 proved to be a noteworthy year for the top solar module manufacturers. The recently unveiled shipment rankings shed light on the ...

Wood Mackenzie's score-based ranking assessed more than 40 leading module manufacturers across 10 countries. These companies accounted for 62% of global production ...

Explore the top 10 global PV module suppliers of 2024. JinkoSolar leads with 92.9 GW, followed by LONGi, JA Solar, and Trina -- the new "F4" giants. As the financial reporting ...
